On Stage Together

ENZERO is also the official DJ accompanying **MANUA** and **ONETWO** on a significant part of their live dates. As part of this performance team, he plays their music, warms up the crowd, supports the energy of the showcase and often handles the opening set, transition moments and/or the closing after their performance. On selected dates, he also performs full DJ sets in their presence, extending the live experience beyond the showcase itself.

MANUA develops a sound rooted in Latino influences and rap, performing mainly in Spanish. He has notably released a track with the well-known singer MC L DaVinte. **ONETWO** moves between Dancehall and Afro-influenced sounds, and has released music on the WYFL Riddim, supported by J.Derobie, while also receiving support from Rick Ross.

Depending on the event format, the team may also include the dancers of Swiss Dance Market, along with occasional guest artists, creating a complete stage experience built around music, dance and crowd connection.
